Our Recommendation

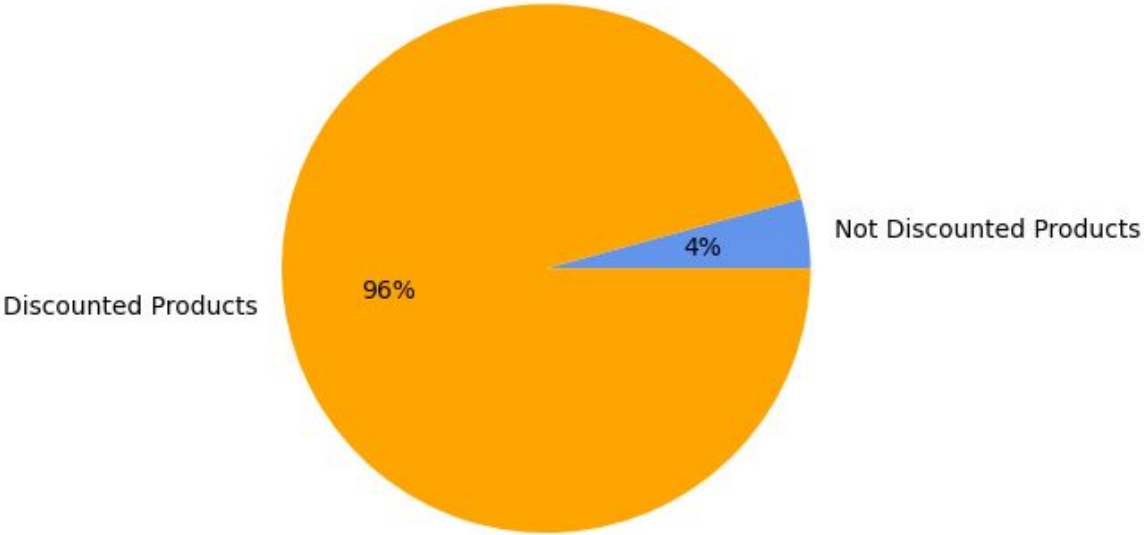
Is it beneficial or not to discount products?

→ **Yes, Discounts around 20%**

- **Discounts aren't everything**
- **Working smarter**
- **Timing is key**

Discounted vs. Non-Discounted Products

- **Dominant Discount Strategy:** 96%
- **Minimal Full-Price Inventory:** 4%
- **Significant Visual Discrepancy**
- **Strategic Impact**

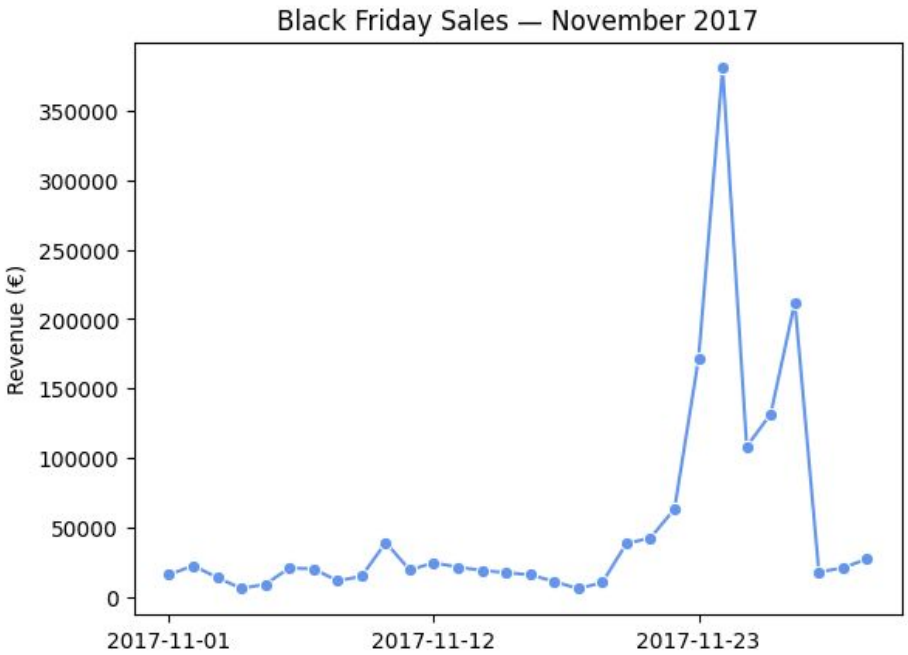


Discount Percentage Distribution

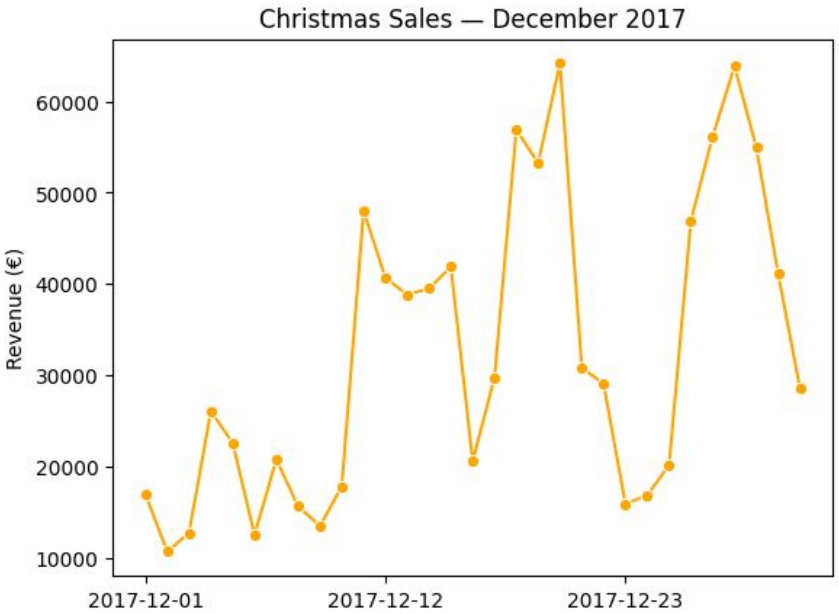
- **20% is the Sweet Spot**
- **Strong Revenue:** 20% = 78,125.98€
- **Diminishing Returns**
- **Inefficiency**

Seasonality Affects

Black Friday Sales — November 2017



Christmas Sales — December 2017



Distribution of Prices Across Categories

Data Improvements

- **Consistent names**
- **Fix the formats**
- **Database Normalisation**
  - **No useless Columns**
  - **Key Columns**
- **Better pricing info**
- **Clean up SKUs**
- **Better Categories**

Thank you for your time!

Appendix

1. Product Categorisation:

- **2-level taxonomy**
- **Rule hierarchy (Avoiding Overlap)**
- **Category 2 list**
- **“Other” Category**
- **Taxonomy management**
